

Associated Professor **JERNEJ PRIŠENK**

Institution: Faculty of Agriculture and Life Sciences, University of Maribor, Slovenia

Short biography and experience:

Jernej Prišenk is Associate Professor of "Agricultural Economics" and "Rural Development" at the Faculty of Agriculture and Life Sciences, University of Maribor, Slovenia. He completed his Bachelor's degree (Agriculture) in 2010, his Master's degree (Agricultural Economics) in 2012 and his Ph.D. degree (Agricultural Economics) in 2015 at the University of Maribor, Faculty of Agriculture. Prof. Prišenk works as a professor of Rural Development and Agricultural Economics in the Department of Agricultural Economics and Rural Development. In the last ten years, he has successfully developed research solutions on quality food chains in the EU agri-food sector and their possible applications in the rural areas of Slovenia. Prof. Prišenk is also a member of the Rural Development Advisory Group at the Ministry of Agriculture, Forestry and Food in Slovenia. His research includes the development of multi-criteria models (using multi-criteria analysis) for the evaluation of local food products in Slovenia, as well as the development of non-parametric and econometric modelling approaches. He is active in research of rural mountain areas in Slovenia (different types of food supply chains) and is author and co-author of 40 scientific papers. His work experience comes from involvement in research work in numerous international and national research projects. The last project activities were related to the planning of the next RDP programme (after 2020) in Slovenia, focusing on the assessment of the added value of food supply chains in Slovenia. In terms of organisational skills and team experience, he currently also holds the following positions: Head of the Master's programme "Agricultural Economics". Chairman of the Quality Assessment Committee of the Faculty of Agriculture and Life Sciences; Head of the Institute of Economics and Breeding Technology of Sport Horses.

Lecture title: **Can the added values in supply chains be the solutions for improving the potential and functionality of the food sector?**
