

Dr ATUL BORA

Institution: Assam Engineering College, Guwahati, Assam India

Short biography and experience:

Dr Bora is currently the Principal of Assam Engineering College and the Director in charge of Technical Education in Assam. Dr Bora is the project leader and the principal authority on the project on behalf of the Government of Assam. Dr Bora's main responsibilities include monitoring the project from the government's perspective and applying the results to building construction management capacity in Assam.

With his experience in sustainability, Dr Bora is leading a new postgraduate programme Construction Management at Assam Engineering College. Working closely with Dr Doloï and his colleagues at the University of Melbourne, Dr Bora is also developing a continuing education programme for practising engineers from relevant government agencies to build the capacity of the industry in Assam.

Lecture title: **Sustainable development issues and issues in sustainability perspective**
